**Tray Components**

- **Intermediate**
  - Reverse Teer Polyurethane Catheter with PowerLine*, dual lumen (14 Fr)
  - Hypo-Glide® Insertion Stylet
  - 14 Fr Introductory Needle
  - 10 cm Guidewire (0.035 in)
  - Syringe
  - Statlock
  - Tissue Ingrowth Cuff

- **Microintroducer**
  - Reverse Teer Polyurethane Catheter with PowerLine*, dual lumen (14 Fr)
  - Hypo-Glide® Insertion Stylet
  - 14 Fr Introductory Needle
  - 10 cm Guidewire (0.035 in)
  - Syringe
  - Statlock
  - Tissue Ingrowth Cuff

*PowerLine® is a trademark of C. R. Bard, Inc.
†Hypo-Glide is a trademark of the Hollister Corporation.
‡Needle-free connection systems are intended for use with non-barbed applications only. Further data is required to determine the complete effectiveness of needle-free connections.
§See www.bardaccess.com for additional information.

**Possible Complications**

- Access site infection
- Thrombosis
- Vessel erosion
- Risks normally associated with local or general anesthesia

**Contraindications**

- Use only in patients with normal hemostasis and stable hematocrit
- Patients with evidence of severe local infection
- Patients with lesions or defects in the skin overlying the insertion site
- Use if there is a history of hypersensitivity to the drug or device

**Contact Person**

**References**

Specially indicated for the power injection of contrast media for CT scans, the POWERLINE® Central Venous Catheter is ideal for central venous pressure monitoring and administration of I.V. fluids, blood products, medications, and blood withdrawals.

**Power Injectable**
- Maximum 5 ml/sec flow rate flow rate at 300 psi pressure limit enables injection of contrast media for contrast enhanced computed tomography (CECT) scans

**Versatility, Strength and Durability**
- Single, dual, and triple lumen options help increase the flexibility of your treatment
- Indicated for central venous pressure monitoring
- Polyurethane construction adds strength and durability for both short-term and long-term use

**Clear Labeling**
- Easy to identify purple power injectable lumen
- Depth markings every 1 cm along catheter
